PERPETRATED BY WALT McDUGALL

AND AUNT JANE IS HEP ALL RIGHT.

"Juarez Hell!" exclaimed General Tamale and in ten minutes Diaz resigned in despair.

ROBERTUS LOVEL.

GINK AND BOOB OR MAN'S INHUMANITY TO MAN IN FIVE STIRRING SPASMS

## SOME BONES

Old Aunt Jane did oft complain  
About her poor old bones  
But no one cared how ill she fared  
Nor listened to her moans  
Until one night it came to light  
What Aunt Jane really owns.  
But now its plain that old Aunt Jane  
Need never be alone  
For we'll try to save her every pain  
While she still has a bone.  
The whole blame push comes in a rush  
The minute Aunt Jane groans!  
For you can bet we don't forget  
She has forty thousand bones.

## SUMMER RECIPES

Grape fruit may now be served  
with horse radish, chopped pickles  
and grated swiss cheese or peanut  
butter flavored with garlic.

# THE OLD RELIABLE BRECKINRIDGE BANK

Cloverport, Ky.

Organized 1872

## OUR RECORD:

39 years of honorable dealing. Passed through three panics and paid every legitimate claim to its full amount on demand. Never scaled a check.

An absolutely Safe Place to do Business.

3 per cent on Time Deposits

EXAMINED APRIL 10-12 BY STATE BANK EXAMINER AND PRONOUNCED A No. 1

## JOSEPH R. RALPH IS BIGGEST MONEY MAKER.

But It Isn't His—He's Director of Government Bureau of Engraving.

There is in Washington a man who makes \$11,000,000 a day. But then it isn't his money. It belongs to the United States government. The man is Joseph R. Ralph, director of the bureau of engraving and printing and one of the most efficient men in the employ of the government.

Money is the science as well as the business of Ralph. Out of the school of adversity he came up from a rolling mill in Joliet, Ill., where he went to work when he was twelve years up; up from twelve hours a day over a machine that racked his young body and gave him a keen realization of the hardships of the laboring man and the value of labor saving devices. Probably the most striking characteristic of the employees of his bureau is that the handling of such vast sums of money as \$11,000,000 a day breeds in most of them a spirit of economy. In several of them recently this spirit of economy became too strong. They began to do a thriving business lending money. The director put a stop to this, however.

"Last year," Ralph said, "we turned out about \$6,000,000,000 worth of stamps, money and securities. Half of that was in notes and securities. A fair sample of one day's work is \$11,000,000."

"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Tex.

## A HUNGRY PYTHON.

The First Course of His Meat Got Him Into Serious Trouble.

In my travels I visited the jail at Thayet-Myo, in Burma. On the morning of my visit there had undoubtedly been an unusual occurrence. A python twenty-two feet long and twenty-eight inches in girth had entered the vegetable garden and crossed it to the fowl pen. Besides the fowls, there were some five ducks in the pen. Now, the front of the pen was fenced with diamond mesh galvanized wire netting of a strong type.

The snake could not resist a fat duck, so, putting its head and neck through the stout diamond frame, it seized and swallowed one. I have no doubt whatever that it would have "mopped up the bunch" inside the house, but that in adjusting No. 1 to make room for No. 2 it became aware of an uneasy feeling owing to the wire around its waist. Neither have I any doubt that in addition to becoming uneasy it became seriously alarmed.

Being now unable either to disgorge or to get away, it tore off the whole section of netting, 6 feet by 8, and returned with the neck and waist-band through the cagebars. Not unnaturally, I think, the sentry, seeing a 6 by 8 foot wire section of fencing marching through the cabbage patch without any visible means of support, gave the alarm and then opened fire.

The prison guard rushed out and also opened fire, and very shortly our hero lay dead in his frame. He was skinned and his skin cured and dressed in the jail, where they are noted for this kind of work.—Forest and Stream.

Buy it now. Now is the time to buy a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over. This remedy has no superior. For sale by all dealers.

## Above the Vulgar Gaze.

Until 1870 it was against the law and sacred custom for any subject to look at the emperor of Japan. His political advisers and attendants saw only his back. When he first left the palace the shutters of all the houses had to be drawn, and no one was permitted in the streets. Even today, when the emperor has the privilege of driving through the streets like one of his subjects, it is not considered quite proper to cast a glance at him.

## Experience.

"Experience is the best teacher," quoted the wise guy.  
"Yes, but her charges are mighty high," added the simple mug.—Philadelphia Record.

## Naturally.

"I heard he was in bad odor with her family. Is that true?"  
"Draw your own conclusions. It was a centless marriage."—Baltimore American.

## TABLE SERVICE TIPS.

All Ornateness of Decoration Has Departed For Simpler Effects.

Fashion is fickle in table service as well as in other things. The dinner table of today is not what it was a few years ago. All the ornateness of decoration has departed, and centerpieces no longer resemble jungles, while one can eat at one's ease without being surrounded by silly little china Cupids and swans.

The whole scheme of decoration for the modern dinner table makes for simplicity. Any suggestion of ostentation is bad form. The table is not strewn with trailing smilax and loose flowers, nor is the bare mahogany seen as of old, except for luncheon or breakfast.

There is a reversal of taste in favor of good linen, plain glass, good flowers and a general practical simplicity of service in every detail. Glass bowls with a few well selected flowers are even supplanting the silver ones, but the latter are often of such real beauty and lend to the table such distinction that it will be difficult to supplant them entirely.

Odd little novelties for the table have crept in recently. One of the newest is small cruet frames for each guest, and these cruetes contain nothing but pepper of different kinds. Cayenne, Nepaul, Aji (from Peru), Hungarian, paprika and Chile powder

are used, so that each guest may favor his food to his taste. The really up to date person nowadays pretends to be an expert in pepper.

## Seemed to Give Him a New Stomach.

"I suffered intensely after eating and no medicine or treatment I tried seemed to do any good," writes H. M. Young, Editor of The Sun, Lake View, Ohio. "The first few doses of Chamberlain's Stomach and Liver Tablets gave me surprising relief and the second bottle seemed to give me a new stomach and perfectly good health." For sale by all dealers.

## FOR THE GOOD ROADS CAUSE

Present Day Difficulties of Travelers Shown in Pictures.

One of the most interesting methods for advancing the cause of good roads throughout the south is being undertaken by the Southern Railway company, working in conjunction with the United States office of public roads.

The company has started a special "road improvement train," provided with lantern slides and stereopticon and screen. This train is touring the south, stopping at all the large cities and most of the small ones.

The stereopticon equipment is for the purpose of showing all the ad-

vantages of good roads and the disadvantages of bad ones. Pictures showing doctors caught in the ruts of bad roads while on their way to patients, undertakers' wagons delayed on the way to the cemeteries, automobiles thrown on the road by a bowlder in a bad road and two loads of cotton, one from a bad road territory and the other from a good road territory, the difference in weight showing the profits and losses that come from good and bad roads, are being shown.

It is hoped by the backers of the present movement that the road improvement train will stimulate the interest of the south, bring about the enactment of uniform laws and uniform methods in the handling of the improvement and maintenance of roads and give the whole south an opportunity to realize the full economic value of a complete system of improved highways.

An ordinary case of diarrhoea can, as a rule, be cured by a single dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy has no superior for bowel complaints. For sale by all dealers.

## PROGRESS AND PROSPERITY

"The good roads movement is not confined to any one state," says Clarence H. Bissell, president of the New Jersey Automobile and Motor club, "and it is to the credit of the people that they are awakening to the absolute necessity of good roads in order to assure progress and prosperity."

## BRANDS NICKELS BOGUS.

Joker Causes Wide Alarm by Story That Nons Was Coined in 1910.

Some joker in the middle west has caused the Washington banks, the treasury, the secret service and a lot of other persons a heap of trouble.

A story was spread that the government coined no nickels in 1910 and that every five cent piece in circulation bearing that date must be a counterfeit.

The facts are the mints clicked off 30,169,353 nickels during 1910, and about \$1,000,000 worth of those coins are in circulation.

For several days the mint bureau and the secret service were besieged with calls for help from banks of the middle west.

## HE DESERVED DEATH.

So Chicago Judge Tells Prisoner Who Intimidated a Woman.

Judge Scully of the Chicago municipal court announced from the bench that he would have killed a man who appeared before him as defendant. J. R. Johnson was in court on complaint of Mrs. Lena Graf.

"I met him, and he told me that he would kill me if I did not elope with him," she said. "He drew a revolver and told me he would give me half an hour to go home and pack my clothes."

Turning to Johnson, Judge Scully said, "If this plaintiff had been my sister I would have killed you."
